PROFESSIONAL EXPERIENCE

INTENTION & INSIGHT | Remote

August 2017 - present

Product Manager

- Built a client network in the startup community by creating strategic visions, marketing campaigns, and delivering the product on time
- Developed tests, made initial technical product difficulty assessments and negotiated timelines
- Worked with cross functional teams and stakeholders to create scalable design solutions across all platforms
- Designed web applications, logos and brand guidelines for clients using Adobe Creative Suite, Figma, Wordpress, Webflow, Squarespace and Shopify

HACKBRIGHT ACADEMY | Remote

August 2022 - October 2022

Software Engineer (student)

Innsite - [Github Repo](#)

Python | PostgreSQL | CSS | HTML | Jinja | JavaScript (AJAX, JSON) | jQuery | Bootstrap | React | Flask | webpack

- Developed product vision and strategy for an app that allows people to travel anywhere, stay in houses designed for working professionals and co-live with working professionals from all over the world
- Focused on user stories to provide an organized experience so the user can login, see their bookings, view each location and see the amenities that are provided using the Google Maps and Clouinary API's

RODWIN ARCHITECTURE | Boulder, CO

July 2017 - March 2020

Product Manager & Designer

- Designed media and managed multiple websites showcasing the firms beautifully designed homes using Squarespace, Wordpress, CSS, HTML and JavaScript while keeping browser performance in mind
- Wrote detailed user stories for the engineering team, designed wireframes, researched competitors and coordinated website launch with company executives and engineers

DRAKE HAGLAN ENGINEERING | Sacramento, CA

December 2015 - June 2017

Product Manager

- Contributed to the development of a design system by designing proposals, brochures, business media and logos for the engineering team using Adobe Creative Suite
- Developed skills in marketing, customer support, UX/UI, product management, sales and engineering by working directly with senior engineers and company executives
